

PERFORMANCE STANDARDS FOR THE 2002-2003 W-2 AND RELATED PROGRAMS CONTRACT

The Performance Standards have been established to measure appropriate and quality services being provided to W-2 and FSET participants. Performance Standards are organized by required criteria, optional criteria, and criteria used for information only.

This chart shows the required Performance Standards for:

1. Base Contract compliance (in addition to the other standards included in the Department's policies);
2. Right of First Selection for the next W-2 Contract (Contract Period 2004-2005). (Requirements for Right of First Selection shall be the same as meeting Base Contract Compliance benchmarks for all criteria.) (Note: Right of First Selection status under this provision may be lost under section 6.16.2 of the Contract.)
3. Restricted Use Performance Bonus (Community Reinvestment); and
4. Unrestricted Use Performance Bonus.

Information will be measured for the period of January 1, 2002 through December 31, 2003. (Right of First Selection will be measured for the period January 1, 2002 through December 31, 2002.) Performance Standards are measured Contract-to-Date or Point-in-Time. Those designated as Contract-to-Date are cumulative beginning January 1, 2002 through the last working day of the report month. Those designated as Point-in-Time are measured on the last working day of each calendar month and an average for all months will be calculated to determine if the criteria have been met. **Note:** For a new W-2 agency, the first quarter will be excluded from each calculation to reflect agency start-up and transition if the W-2 agency requests the exclusion of the first quarter data by notifying the Department in writing by 12/27/02 to request this exclusion.

One Case Credit

In order to recognize that in agencies, especially those with small caseloads, one case can make a significant difference in the calculation of the Performance Standards benchmarks, a One Case Credit is established.

A One Case Credit will apply when:

- a) The Department makes the final determination of whether a W-2 agency meets a benchmark level for a Performance Standard criteria;
- b) The W-2 agency does not meet a Benchmark for one or more of the following criteria: Entered Employment Placement Rate; Job Retention Rates; Full and Appropriate Engagement; Basic Educational Activity; Earnings Gain; Educational Activities Attainment.
- c) At least one of the W-2 agency's cases does not meet one or more of the benchmarks for the criteria in b) above; and
- d) The W-2 agency would meet a Benchmark for a criteria listed in b) above if one case that did not meet the criteria was instead considered by the Department to meet the criteria.

Performance Standards (continued)

The One Case Credit will be applied only once per agency per criteria listed in b) above. The application of the One Case Credit will result in the W-2 agency meeting the Base Contract Compliance Benchmark or the next Benchmark beyond the Benchmark that the W-2 agency would otherwise meet without the application of the One Case Credit. Example: A W-2 agency meets the Base Contract Compliance Benchmark for Entered Employment Placement Rate but does not meet the Restricted Use Performance Bonus (Community Reinvestment) benchmark or the Unrestricted Use Performance Bonus Benchmark. Application of the One Case Credit would allow the agency to meet the Restricted Use Performance Bonus (Community Reinvestment) benchmark but not the Unrestricted Use Performance Bonus Benchmark.

Zero Case Credit

The Department will apply a special Zero Case Credit to any W-2 agency with no cases for a Performance Standard (if there are any W-2 agencies with zero cases at the time of the Department's Performance Standards calculations). The Zero Case Credit will result in any W-2 agency with no cases meeting the Base Contract Compliance Benchmark and Right of First Selection (RFS) Benchmark, but not meeting the Restricted Use Performance Bonus Benchmark and Unrestricted Use Performance Bonus Benchmark. In order to be eligible for a Restricted Use Performance Bonus (Community Reinvestment) or an Unrestricted Use Performance Performance Bonus, the W-2 agency must have at least one case for the Performance Standard.

Adjustment Process

The Adjustment Process outlined in BWSP Operations Memo 00-72, which was developed to address unusual or non-recurring events, will remain in effect for the 2002-2003 Contract Period. To request consideration, a W-2 agency must submit a written request in accordance with the Department's Policies and Procedures.

Risk Protection Adjustment

At the request of a W-2 agency that is not a tribal agency the Department will reassess the Performance Standards benchmark when the county's average unemployment percentage rate for the most recent three (3) months period is at least 6.5% and at least equal to 110% of the county's unemployment rate for the corresponding three (3) months period in either of the two (2) preceding calendar years. At the request of a tribal W-2 agency, the Department will reassess the contract benchmark if the tribal government documents the following: a tribally operated enterprise employing at least 10% of the tribal workforce has closed for at least a 3 month period; or there has been at least a 10% reduction in the tribe's per capita payment for the most recent 3 month period, compared to the corresponding 3 month period in either of the 2 preceding calendar years.

The Risk Protection Adjustment is designed to allow unique circumstances related to unemployment of each rate agency to be considered by the Department. Use of this adjustment in the 2002-2003 Contract Period will take the place of the regression analysis model identified in the 2000-2001 W-2 Contract, as the Risk Protection Adjustment accounts for local labor market conditions and unemployment rates. The Department will apply this adjustment as follows:

The unemployment rate for the county is converted into an employment rate by subtracting the unemployment rate from 100. For each Performance Standard to which the Risk Protection Adjustment applies, the benchmark is multiplied by the agency's unemployment rate and is then divided by 93.5.

Performance Standards (continued)

Example:

County average unemployment rate is 12%

Employment rate = 88 (100-12)

Entered Employment Placement Rate standard would be adjusted as follows:

$$\frac{35 \text{ (Benchmark)}}{93.5} = \frac{x}{88}$$

x = 32.94%, the new Benchmark level

|---|--|--|---|--|---|--------------------------------------|
| Meet Priority Outcomes for Participants | Entered Employment Placement Rate (Contract-to-Date) | For W-2 and FSET Participants: A percentage of the total participants served by the agency have an Entered Employment placement reported. For the Base Contract Compliance and RFS for future contract measures, this criteria applies to all full and part time jobs lasting 30 days or more, as reported for participants in FSET and W-2 participants in subsidized employment (W-2 T, CSJ, and Trial Jobs) and case management positions. For Restricted Use Performance Bonus and Unrestricted Use Performance Bonus, the measurement will be for full time jobs lasting 30 days or more. | 35% Applies to both full and part-time jobs. | 35% Applies to both full and part-time jobs | 35% Applies to full-time jobs | 40% Applies to full-time jobs |
| | Job Retention Rates: (Contract-to-Date) | For W-2 and FSET Participants: The Job Retention Rate is calculated for each of the following: a) The percentage of participants with a 30-Day Follow-Through Contact Due that remain employed at the 30-Day Follow-Through Contact; and b) The percentage of participants with a 180-Day Follow-Through Contact Due that remain employed at the 180-Day Follow-Through Contact. This criteria applies to participants in FSET and W-2 subsidized and case management positions for whom an Entered Employment transaction was reported for full or part time jobs lasting 30 days or more. The participant may be employed with the same or different employer at the 30 th or 180 th day after the Entered Employment is recorded. | Deliver high quality and effective case management services | FEP to caseload ratio (Point-in-Time – each month averaged to determine the quarter results) | For each quarter of the contract period, no FEP may have a caseload of more than fifty-five (55) W-2 payment cases. A FEP caseload may not exceed one hundred twenty-five (125) total cases (including FSET, non-custodial parent, and case management only cases, in addition to W-2 payment cases. Each W-2 agency has the option to submit (as a part of their RFS Re-contracting response or RFP response) an alternative measure for approval by the Department that is equivalent to the 55 to 1 ratio. For example, if an agency had a specialty FEP who was bilingual, that FEP may have a caseload of fewer than 55 payment cases, and another FEP would have a caseload of greater than 55 cases; however, those cases would have fewer barriers or special needs. Merely averaging the number of all FEPs across the entire caseload is not acceptable as an alternative measure. Vacant positions cannot be included in the calculation. In order to address routine turnover, each agency may have a 5% variance per quarter. | Meets requirement for all 8 quarters | Meets requirement for first 4 quarters | N/A | N/A |
| | W-2 agency staff meet training requirements Point-in-Time, December only) | The percentage of the W-2 agency staff * must have been determined by the Department to be in compliance with training requirements (completed all required training in accordance with the Department's policies by the end of December of each year of the contract or been granted an extension by the Department). The standard is less than 100 percent to take into account factors such as class cancellation. *Subcontractor staff who perform the job responsibilities of the W-2 agency staff, such as FEP case management, also must meet this standard. | 90% | 90% | 95% | 100% |
| | Assessment for Appropriate W-2 Placement and Extension (Point-in-Time) | For W-2 Participants Only: A percentage of the W-2 participants who are placed in unsubsidized or subsidized employment placements must receive assessment services as described below: a. Comment: An informal assessment must be done prior to or concurrent with the initial placement.</p> <p>b. Extension information, including extension denials by the W-2 Agency or DWD as well as extension approvals, must be entered into CARES timely. PERFORMANCE STANDARDS – OPTIONAL CRITERIA

| OPTIONAL CRITERIA | MEASURING TOOL | UNRESTRICTED USE PERFORMANCE BONUS |

| Faith-Based Contracts: There is a valid contract or memorandum of understanding between the W-2 agency and a faith-based provider (as defined in section 6.54 of the Contract) to provide direct services, (e.g., transportation, basic skills training) to W-2 participants* under the W-2 Contract. Services must be provided under the contract. One or more contract(s) must be signed and in effect for seven of the eight quarters of the W-2 Contract Period. The contract(s) does not need to be with the same provider(s) for the entire W-2 Contract Period. | Copy of the signed contract(s) submitted to the Department's Contract Manager and documentation of services being provided. | Valid Contract and service provision |
| SSI Advocacy: There is a valid contract or memorandum of understanding between the W-2 agency and a SSI advocacy agency or the W-2 agency has a trained SSI advocate on staff. In the calculation of the Unrestricted Use Performance Bonus, a W-2 agency may request the use of one of the above optional criteria as a substitution for the Unrestricted Use Performance Bonus for one of the six (6) required Meet Priority Outcomes for Participants Performance Standards. A maximum of one substitution may be requested by the W-2 agency.

PERFORMANCE STANDARDS – FOR INFORMATION ONLY

| Indicator | Measurement |
|---|---|
| Average Wage at Placement | The average wage rate attained during the contract period as compared to the average wage rate attained during calendar year 2000 for the agency's FSET and W-2 population. |
| Addressing Barriers | This measures the percentage of participants in one of following W-2 components: Physical Rehabilitation, AODA Assessment, AODA Counseling, Mental Health Assessment, Mental Health Counseling, SSI advocacy, Caring for a Disabled Family Member, Caring for a Disabled Child, and Domestic Violence Services. This is not meant to emphasize barriers but rather to measure activities that are designed to reduce or deal with barriers. |
| Expanded Caseload: Emphasizes serving broader population of working poor. | This measures the levels of work program participants in Children First (CF), Welfare to Work (WtW), and Workforce Attachment and Advancement (WAA). |
| In Work Supports (EITC, CC, MA, FS, Child Support) | This measures levels of in-work supports. |
| Moving Out of Poverty Indicator | This measures earnings using UI wage data for W-2, FSET, CF, WAA, WtW and other work program participants. It will be measured during and after program participation. |
| Recidivism Rates | This measures the percentage of new W-2 participants receiving cash payments who previously received W-2 cash and had an interlude of at least 2 months without receiving cash payments. |
| 18 and 19 Year Olds in School | Activities and Employment |
